Founded in 2017

*Editor-in-chief*

**Mukola Bobyr**  
(Igor Sikorsky Kyiv Polytechnic  
Institute, Ukraine)

*Deputy editor-in-chief*

**Olexandr Lugovskyi**  
(Igor Sikorsky Kyiv Polytechnic  
Institute, Ukraine)

**Georgy Krivov**  
(Ukrainian Research Institute of  
Aviation Technology, Ukraine)

*Executive editor*

**Yuriy Danylchenko**  
(Igor Sikorsky Kyiv Polytechnic  
Institute, Ukraine)

The international science-and-technology journal "**Mechanics and Advanced Technologies**" is the successor to the reader in mechanical engineering "**Journal of Mechanical Engineering NTUU "Kyiv Polytechnic Institute"**" (ISSN 2305-9001, e-ISSN 2409-5966). Year of issue 1964–2017

Registration Certificate

КВ №22698-12598ПР від 04.05.2017р

According to the Ministry of Education and Science of Ukraine orders №1643 of December 28, 2019 "Mechanics and Advanced Technologies" was included to the List of academic editions of Ukraine on technical sciences, category "B"

**Advised is published by the decision:**  
*the Scientific Council of Institute of Mechanical Engineering, protocol No. 2 of 26 September 2022.*

**Editorial Board**

<b>Mechanics</b>	<b>Up-to-date machines and the technologies of mechanical engineering</b>	<b>Aviation Systems and Technologies</b>
<p><i>Editors in charge</i>  <b>Holm Altenbach</b>  (IFME, Otto-von-Guericke- University  Magdeburg, Germany)</p> <p><i>Editorial Board</i>  <b>Mykhailo Shtern</b>  (Institute of Problems in Materials Sciences  NAS of Ukraine, Ukraine)  <b>Yevhen Nykyforovich</b>  (Institute of Hydromechanics NASU,  Ukraine)  <b>Vladyslav Golub</b>  (S.P. **Composition of the advisory board**

**Vitalii Pasichnyk**, National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute", Ukraine.

**Sergiy Shukayev**, National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute".

**Oleh Yakhno**, National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute".

**Vasyl Strutynskyi**, National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute".

**Viktor Maiboroda**, National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute", Ukraine.

**Yuriii Kuznetsov**, National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute", Ukraine.

**Yuriii Petrakov**, National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute", Ukraine.

**Viacheslav Titov**, National Technical University of Ukraine "Igor Sikorsky Kyiv Polytechnic Institute", Ukraine.

**Oleh Korostelov**, Luch Design Bureau, Ukraine.

**Ihor Kravchenko**, SE Ivchenko-Progress, Ukraine.

Purpose of edition is to get acquainted with the latest achievements in mechanical engineering, the results of scientific achievements and improved methods of calculation and planning of elements in mechanical engineering constructions. The edition is intended for scientists and scientific and technical specialists in the branch of mechanical engineering.

Articles have been presented in author's version.

The journal publishes only peer-reviewed articles.

The Editorial Board reserves the right to place the authors provided information in different databases.

The collected article is included into general state abstract database "Ukrainika scientific) and international scientometric databases: DAOJ, Index Copernicus, Google Scholar, Open Academic Journals Index (OAJI), WorldCat, BASE, EBSCO.

<b>I. Orynyak, R. Mazuryk, V. Tsybulskyi</b>	
Semi-analytical implicit direct time integration scheme on example of 1-D wave propagation problem .....	115
<b>O. Seminskyi</b>	
Substitution of equations for evaluation of energy consumption in rotor-stator mixers .....	124
<b>O. Machuga, M. Borys, Y. Lusta</b>	
Methods of the terrain allowable slope determining for safe operation of specialized equipment under the non-stationary load action .....	130
<b>M. Dyman, A. Moltasov, S. Kalyuzhny</b>	
Calculation and experimental procedure for determining the modulus of elasticity of porous coatings on a substrate during bending. Part 1. Theoretical foundations .....	139
<b>A. Pogrebniak, V. Kasperska</b>	
Fatigue resistance of metal construction materials and its relationship with changes in the state of thin surface layers .....	143
<b>L. Danylova, S. Lapkovskyi, V. Prykhodko</b>	
Peculiarities of calculating the diameter of the hole for setting the thread-forming part .....	151
<b>S. Godziy, A. Klisko, V. Myronenko</b>	
Finding and analyzing of the energy and force parameters of the flange formation process by orbital stamping by rolling .....	161
<b>K. Zastavskyi, V. Maiboroda</b>	
The influence of the size of details on the frontal resistance forces during magnetic abrasive finishing .....	168
<b>M. Orliuk</b>	
Corrugation prediction in process of sheet drawing based on the results of modeling in the DEFORM environment .....	178
<b>V. Kaliuzhnyi, S. Sytnyk, A. Titarenko</b>	
Hot crimping in a special profile matrix of axisymmetric hollow workpieces from high carbon steel .....	187
<b>I. Bernyk, I. Nazarenko, O. Luhovskyi</b>	
Research and determination of the acoustic parameters of the movement of a cavitation bubble in a liquid medium according to discrete and continuous models .....	195
<b>V. Zabashta</b>	
Alternative technologies of composite highly loaded of aircraft structures: a qualitative method of making multi-criteria decisions. Part II. Modeling in multi-criteria evaluation of alternatives .....	203
